9 June 2008

As a Veterinarian I can assure you, if you put this up your nose it WILL hurts.
Aim Of Presentation
Directorate animal health's mission
Military Veterinary Institute structure
Communication platforms (liaison)
Veterinary services rendered to ES
Wildlife's value within the SANDF
Challenges
Conclusion
STRUCTURE FOR FACILITIES MANAGEMENT
Wildlife's Value
Monetary value = R 60 000 000-00
Management of Vegetation and Soil
Biodiversity preservation
Realistic military training conditions
Ecological system management
Game is a management tool toward sustainable use of military training areas
Directorate Animal Health - Mission
To ensure a comprehensive, modern, professional animal health service at all times, at the appropriate level, to the uniformed services and other approved clientele in the area of interest of the SANDF. Therapeutic, preventative, advisory and training services, provided by a professional, dedicated team of part-time and full-time animal health personnel, will enhance the operational preparedness of approved clients as indicated by the mandate of the surgeon general.
Veterinary Services Rendered General
Ecological services
Environmental planning
Animal/terrain evaluation
Terrain management inputs
Environmental education
Wildlife disease control
Zoonotic disease control/surveillance
Challenges
Centralised game management
Executive powers for Logistic Support Formation via RFIM offices
Veterinary input in management
Terrain visits
Communication
Flying hours
Research
Military Veterinary Institute Structure
Veterinary Services Rendered Wildlife-specialist
Acceptance = introduction of new species
Relocation = capture & transport
Clinical services = sickness & injuries
Immobilisation = clinical services & relocation & collar placement
CONCLUSION
Veterinary Services Rendered Wildlife-Specialist
carcass inspection
Monitoring & inspection = contracted work
Game-specific drug management
Manage equipment for capture & relocation
CAN CONTROLLED BURNING
DIVERSITY AND VELD
1. AIM OF PROJECT
IS TO DETERMINE WHETHER THE UTILISATION OF CONTROLLED BURNING CAN INCREASE SPECIES DIVERSITY AND VELD CONDITION.

Please sir, can I have more beer?
Hah hah hah!

Hard work these international conferences!

I'd like to teach the world to sing.....

Okay, you take the small one.

My boss thinks I'm he
to work!

So, you think I am a s*kop....!
Sgt Renier van Wyk
South Africa

I say old chap....!

This will be a short presentation…?!
AIM OF PROJECT
The aim of the project is to assist and empower Commanding Officers to successfully meet the challenge of responsible and accountable environmental management on military properties through a system by
providing direction through a set of environmental management guidelines;
providing an auditing mechanism to measure performance;
gathering environmental information for national annual reporting; and
motivating and rewarding bases, units and individuals for environmental achievements
INTRODUCTION OF AWARDS

– Base Environmental Management
1988 – Environmental Education & Training
1990 – Conservamus Award
1997 – Military Integrated Environmental Management
– Water Efficiency
– Energy Efficiency
2002 – Integrated Waste Management
Environmental Education and Training
Ecological Management
Base Environmental Management
EVALUATION
Round: Internal Paper Evaluation at Regional Level
2nd Round: Internal Paper Evaluation at Executive Level
National: Evaluation Visit by Internal and External Environmental Evaluators
EXTERNAL EVALUATORS
Sponsors
Business
Government
Civil Society
INTERNAL EVALUATORS
Environmental practitioners
Other military personnel
TROPHIES
Endangered Wildlife Trust Floating Trophy for Ecological Management
Caltex Floating Trophy for Base Environmental Management
Professor Kristo Pienaar Floating Trophy for Environmental Education and Training
Conservamus Floating Trophy for Contribution to Environmental Services
Aquator Award for Water Efficiency
Bonesa Award for Energy Efficiency
SA National Parks Floating Trophy for Military Integrated Environmental Management
Keep Durban Beautiful Award for Integrated Waste Management
OUTCOMES
Co-operative governance mechanism for environmental management
Contribution and guidance on environmental performance
Transparency on DOD environmental performance
Increased motivation for and awareness of environmental management
We are proud to play a part in finding the solutions

You damage the land.... I damage you!!
SCHOOL OF ARMOUR
DEVELOPMENT OF STORMWATER SYSTEM.
KEEP STORM WATER SYSTEM CLEAN, CONTINGENCY PLAN
DAMAGES TO OUR ENVIRONMENT
NATIONAL HERITAGE
CONSERVATION OF WE
STUDY AREA

We'll take the photo after the bell.

Viva!!!!

If you shoot your enemy through the head, he will not die from toxic bullet components.

I am 24 and my hobby is to collect families.
What! Yes sure pal!

Blah blah and more blah blah……
Boringgg! I'll rather read something.
Capt Willie Koekemoer South Africa
Capt Addriene le Roux South Africa
